HEAT HOODS

Loaded with innovative features, the HEAT Series Hoods are the ultimate in neoprene dry suit hoods.

- Center panels are made from double-layered 3mm titanium neoprene with molded vent valves to release trapped air from within the hood.
- Seams are glued, blind-stitched, and seam sealed.
- Grip Strips located at hood side prevent mask strap from slipping.
- Ergonomically designed collar conforms to your neck for maximum coverage and mobility.

Sizes

- S, M, L, XL

HEAT NON-ZIP DRY HOOD

- 7mm neoprene side panels, 5mm forehead, and 5mm chin offers extra warmth & supreme comfort.

HEAT ZIP HOOD:

- 7mm neoprene side panels, 5mm forehead, and 3mm chin offers optimum warmth, supreme comfort while eliminating jaw fatigue.
- Zipper with sealing gusset and Velcro tab at zip base allows easy donning and doffing.

Molded vent valves

Grip strips for mask strap

TOQUES

1MM NEOPRENE BEANIE

Stretchy 1mm neoprene material keeps your noggin warm and comfy. Seams are flat-stitch sewn for strength, flexibility and comfort.

FUSION BOOT

Designed to mate with the Fusion Drysuit, the 2 layer Fusion boot sets a new standard in dry-suit comfort and performance.

Features:

- Low profile to fit standard fin pockets.
- Form fit reduces excess air in boots resulting in superior buoyancy control.
- High mobility design results in less fatigue while diving.
- Streamlined design offers less drag reducing your energy output.
- Fast entry and exit.
- Boot sizes can easily be changed by either you or your dealer.

The 2 layer DryCORE advantage

No other drysuit boot can match the mobility of the Fusion Boot. The internal fabric sock is 100% dry and welded to the fusion suit dry core. The external Fusion Boot is made to be durable, highly flexible and streamlined. The two layers are held in place via Velcro fasteners just above the ankle and at the heel. An insole is inserted inside the dry sock as a final lock.

Sizes

5/6, 7, 8, 9, 10, 11, 12, 13/14

3MM NEOPRENE SOCKS

- The perfect medium-weight liner for temperate to cold conditions.
- 3mm Titanium neoprene for a comfortable fit.

Sizes

- 4/5, 6/7, 8/9, 10/11, 12/13, 14/15

EVO3 BOOT

The EVO3 boot was designed in conjunction with the military for use on wet, slippery decks, finning for swimming and running on wet rocky shores.

Features

- Heavy duty dual layered sole with multi-directional traction lugs.
- Reinforced padded ankle support.
- Drainage ports.
- Heel pull tab.
- Reinforced toe and heel.

Sizes 5/6, 7, 8, 9, 10, 11, 12,13,14/15

MK3 SOCKS

Inspired by the Canadian Military who regularly dive in Arctic waters, the MK3 sock has the same tri-layered system as our popular MK3 Undergarment:

1. Outer Nylon (with heel stretch panels)
2. Primaloft®
3. Inner Fleece

Features

- Breathable, moisture wicking, high loft, insulating polypropylene Polar Fleece inner lining.
- StormProof 70 denier micro-ripstop water-resistant Taslon outer nylon facing.
- Primaloft® sandwiched between fleece lining and nylon facing - Primaloft® is as warm as down, compressible, breathable and offers superior water repellency.
- Complement this with the MK2 Undergarments, or layer with the MK1 undergarments for colder conditions.
- Sock can be worn alone or with a very light moisture wicking sock to minimize laundering.

Sizes

- 4/5, 6/7, 8/9, 10/11, 12/13, 14/15

DIVE ACCESSORIES

HEAT NEOPRENE GLOVES

Whites top of the line Neoprene gloves are warm, flexible and tough.

Features

- Closed-cell neoprene featuring gas filled micro bubbles for maximum warmth and dexterity.
- The interior surface of palm and fingers are lined with Titanium Slick Skin (TSS). TSS is warmer, has a faster drying time, and no stink! Minimal water seeps between you and the glove, providing an excellent seal when mated up against dry suit seals.
- Ergonomically designed for the perfect fit.
- Pre-curved palm minimizes hand fatigue.
- Laminated woven nylon outside finish built to last.
- Dry Seam Construction (DSC) seams! Glued, blind-stitched, with external seam seal. Virtually no water is circulated!

5 FINGER HEAT GLOVE

Available in 3mm and 5mm neoprene.

Sizes

- XS, S, M, L, XL, 2XL

3 FINGER HEAT MITT

Available in 6mm neoprene.

Sizes

- XS, S, M, L, XL, 2XL

DRY GLOVES

Dry gloves result in warm, dry hands, and often provide greater dexterity to the diver.

DRY GLOVE QUICK CLAMP SYSTEM

REMOVABLE WRIST RINGS:

- Simple wrist ring Installed on existing latex seals.
- Removable and replaceable.
- Inner ring compresses latex seal between outer wrist ring.

PERMANENT WRIST RINGS:

- Installed permanently onto drysuit.
- Available as a Made To Order (MTO) option.
- Latex seals are user replaceable – no glues or adhesives required.

COMMERCIAL GLOVES WITH GLOVE RINGS:

- Heavy duty commercial gloves with glove liner for maximum durability and warmth.
- Inner ring compresses glove between outer glove ring.
- Used with both the removable and permanent wrist ring systems.
- Glove O-ring compresses into wrist ring.

GLOVE LOCK SYSTEM:

- Innovative new glove and wrist ring system that lock together.
- Heavy duty commercial gloves with glove liner for maximum durability and warmth.
- Audible "click" ensures the rings are locked in place.
- Can be donned and doffed without assistance.
